### *Conclusion*

This is a continuation of applicant's earlier Application No. 08/876437. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

### **DETAILED ACTION**

#### *Continued Prosecution Application*

1. The request filed on 7-20-00 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 08/876437 is acceptable and a CPA has been established. An action on the CPA follows.

#### *Claim Rejections*

##### *35 USC § 112 and 35 USC § 101*

2. Claims 1-9 are rejected under 35 U.S.C. 101 because the claimed invention, sustainable, non surgical breast augmentation through cocoa butter and Vitamin E is not supported by either a credible asserted utility or a well established utility.

Applicant's assertion of specific credible utility is not considered credible. One of ordinary skill in the art would not find applicant's assertion of utility credible because applicant has not offered any statistically significant evidence to prove such.

Claims 1-9 are also rejected under 35 U.S.C. 112, first paragraph. Specifically, since the claimed invention is not supported by either a credible asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention and would not find applicant's assertion of utility credible because applicant has not offered any statistically significant evidence to prove such as stated previously.

3. Examiner was unable to contact the web site for "African Medicines Formulary; Vitamins." It is requested that applicant confirm that web site is still active and open.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3900.
